**FOR IMMEDIATE RELEASE**

## **Hurckman Mechanical Industries Becomes Northeast Wisconsin's First Full-Service MEP Company with Acquisition of Van Den Heuvel Electric**

**Green Bay, WI, October 3, 2024**—Hurckman Mechanical Industries (HMI), a one-stop shop for complete industrial and commercial mechanical systems, is excited to announce the acquisition of Van Den Heuvel Electric, a trusted name in electrical contracting since 1928. This strategic move makes HMI the only full-service mechanical, electrical and plumbing (MEP) company in northeast Wisconsin.

By integrating Van Den Heuvel Electric's 95 years of electrical expertise with Hurckman's longstanding mechanical and plumbing services, HMI can now deliver complete project solutions. Clients will benefit from streamlined project management, reduced costs and a more cohesive service experience.

"We are thrilled to welcome Van Den Heuvel Electric to the Hurckman family," said Jake Warden, President of Hurckman Mechanical Industries. "Van Den Heuvel has been a cornerstone of Wisconsin's electrical contracting industry for nearly a century. Their culture of quality, integrity and innovation matches our own, and we're excited to merge these two legacies into one powerhouse MEP company."

**Founded in 1953, Hurckman Mechanical Industries began as Hurckman Metal and Roofing, Inc., operated by Frank and Anne Hurckman near HMI's current headquarters at 164 N. Broadway Street in Green Bay. HMI has since evolved into the full-scale mechanical contractor it is today.** HMI provides services for design/build, HVAC, piping, plumbing, sheet metal fabrication, refrigeration, mechanical insulation, electrical and more for customers across the country from locations in Green Bay, Wausau and Marinette.

### **Expanding Capabilities for Future Projects**

Leading the way in northeast Wisconsin's evolving construction landscape, HMI now offers bundled mechanical, electrical and plumbing solutions to provide greater efficiency, less downtime and more seamless execution on projects ranging from new builds to maintenance and system upgrades.

"As a company, we've always been dedicated to delivering on our promises," said Warden. "This merger reinforces that commitment."
