

# KICK OFF YOUR FUTURE SKILLS COMPETITION

The skills competition is a partnership with local schools to provide hands-on experience to students and connect them with experts in the trades. The annual competition challenges students to build a field goal project based on specific design requirements. Projects are judged on correct dimensions, weld quality, and design/appearance. Seventeen high school teams will exhibit their projects.

## TUESDAY, OCTOBER 29, 2024

UA 400 Training Facility  
2700 Northridge Drive, Kaukauna  
4:00 p.m. to 6:30 p.m.
